

# Traffic

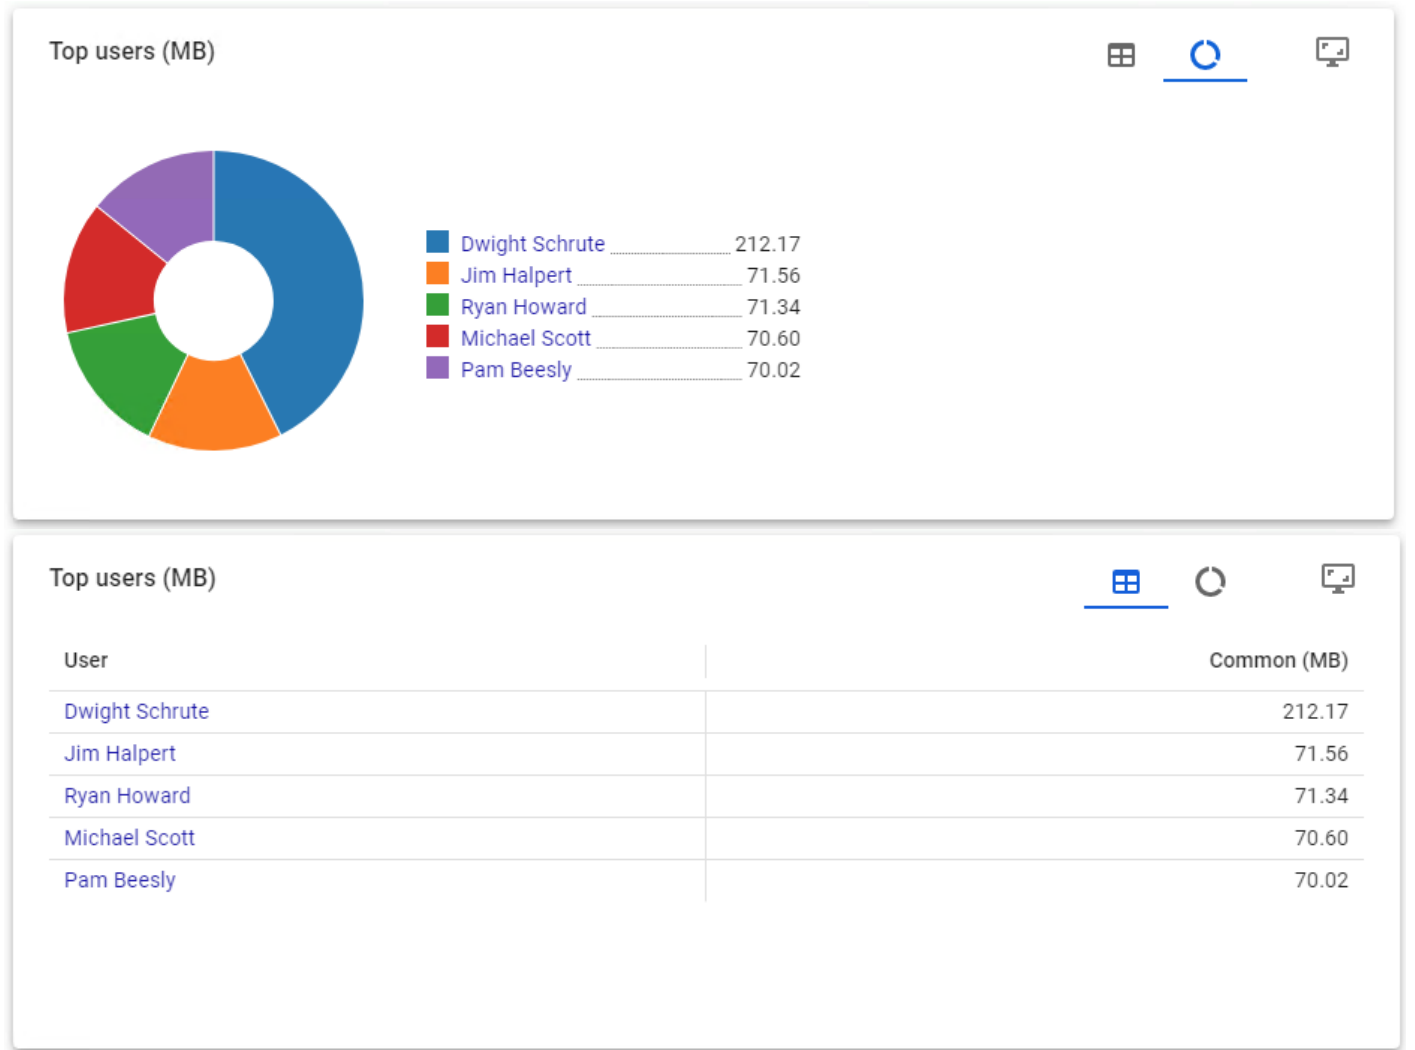

Statistics from Application Control and Content Filter.

The section automatically collects statistics from the **Content filter** (categories and sites) and **Application Control** (protocols), collecting it into widgets with default filters.

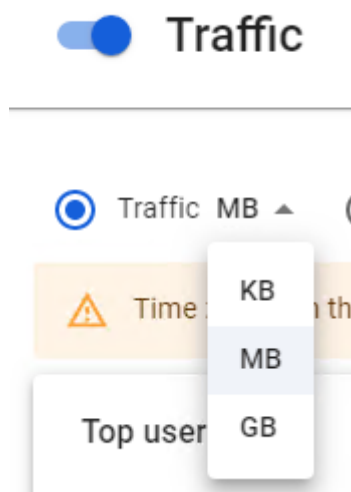

## Information display method:

Pie Chart (pie icon) and table (table icon)

Contains the top 5 objects. Each object is clickable and leads to a page with widgets in which statistics are filtered for this object.

The unit of measurement can be changed in the upper left corner:

### Expanded mode (monitor icon)

Contains data on all objects from the top. To search by objects, use the **Filter** (filter icon).

Traffic / Top users

☒ Traffic MB ☐ Requests

Aug 31, 2022 - Aug 31, 2022

⚠ Time zones on the server and the browser do not match. Note, reports use server time and timezone.

Columns Filters Density

User	Requests	Common	In	Outgoing
Dwight Schrute	21,254	212.18	172.92	39.26
Jim Halpert	17,367	71.56	35.88	35.68
Ryan Howard	17,452	71.34	35.72	35.62
Michael Scott	17,270	70.60	35.38	35.22
Pam Beesly	17,061	70.02	34.98	35.05

If the flag in the **Requests** line is set in the upper left corner, then the objects will be filtered in descending order by the **Requests** column. If **Traffic**, then in descending order in the **Incoming** column.

To save the result to a CSV file or print a spreadsheet, click **Export** (download icon).

The time and date in the widget are displayed in the server's time zone.

### Examples of using:

**A)** Which prohibited sites a certain user went to:

- Open the section **Reports -> Traffic**;
- In the **Top Users** widget, find the desired user and click on it.  
If the user is not in the list, then click **Expand** (monitor icon) in the upper right corner of

the widget (a list of all users will open);

- In the **Top Blocked Sites** widget, UTM will show the top 5 blocked sites. To view the full list of blocks, click **Expand** (monitor icon).

**B) Which users have blocked a particular application:**

- Open the section **Reports -> Traffic**;
- In the **Top Blocked Protocols** widget, find the required protocol and click on it. If it is not in the list, then click **Expand** (monitor icon);
- To see a list of all users who have been blocked by this protocol, then on the page that opens, find the **Top Users** widget and click **Expand** (monitor icon).

Read more about creating your own templates with statistics in the [Report Designer](#) article.
