License Management

Licensing Scheme

At the moment SafeUTM license has two types of licenses:

- Free trial;
- Enterprise.

Both types of licenses can be acquired by contacting your SafeDNS manager.

Viewing license information

A detailed view of the server and license information is available by clicking on the eye icon in the **Operations** column of the **Server + License** table.

Detailed information about the license contains data about the license validity period, number of users, expiration date of updates, and technical support of the product.
